Congressman Barney Frank,

I am a citizen of the United States. I am one of 230 million aged to vote, and one of many millions outraged by your obstructionist behavior. We, the people of these United States, demand that you release HR 1207 from committee and bring it to the floor for a vote.

Over the years, many hearings have been held during which the Fed representatives have been asked questions . In each case that I am aware, those same Fed representatives have given neither proper nor direct answers.

It is the responsibility of Congress to oversee the actions of the Federal Reserve. As long as those actions are hidden, Congress has failed.

It is time to bring the operations of this bank into public view. It is time for a true audit.

HR 1207 has been in committee since February 2009. It has over 280 cosponsors and bi-partisan support. It is apparent the time to bring this bill to a vote is now. This bill needs to be fast tracked to the floor for open debate and a vote.

Sincerely,
